- In 2024, we are looking to revamp our Aspire select entry program.
- Within this program, students learn the skills that are necessary to be successful in VCE and University.
  - Students will learn how to study effectively by implementing note-taking and higher order thinking strategies that they can transfer into all of their subjects and beyond school.
  - They will also learn how to work collaboratively with other students in order to solve common challenges from their classes.
- Students must study an accelerated Year 11 subject in Year 10 in 2024 to be involved, and possess a growth mindset.
